

Reliable®

Introduces our best-in-class Window Protection Sprinklers.

WP56 Glass Bulb Sprinkler, SIN R501

- 155°F (68°C)
- 200°F (93°C)

WP56L Fusible-link Sprinkler, SIN R502

- 165°F (74°C)
- 212°F (100°C)

Industry-leading Protection

The Model WP Series Sprinklers used with fixed glazed assemblies create a cULus Listed alternative to a fire-rated wall. The **Fast Response Specific Application Pendant Vertical Sidewall** sprinklers can be spaced up to 12 ft (3.7 m) on-center and requires only 15 gpm (57 l/min) flow per sprinkler.

- *Sleek profile available in bronze, chrome, white polyester, and special finishes to complement architectural glazing*
- *cULus Listed as corrosion resistant with ENT, white polyester or black polyester finish on WP56 glass bulb sprinkler*
